MAINTAIN YOUR HEAD ABOVE WATER

HIPPO FACILITIES MANAGEMENT SOFTWARE: Control Over Your Environment

HippoFM Software is a proven EAM/CMMS system for managing building maintenance operations, reducing the total cost of ownership and increasing the lifespan of your facilities and assets. We specialize in providing superior processes and supporting software for Healthcare, Education, Property Management, Hospitality and Municipal Services environments.

HippoFM isn't just software — it's a comprehensive strategy to quickly and efficiently manage your facilities and maintenance in a fun, user-friendly way that will increase employee retention and client satisfaction.

Reduced Cost of Ownership

HippoFM decreases your facilities and maintenance costs through:

- Streamlined operations with simple and powerful work order management
- Optimized use of maintenance resources
- Decreased time spent in administrative tasks
- Mobile tracking and entry through handheld devices and on-the-go task management

Increased Lifespan of Facility and Assets

HippoFM increases the lifespan of your facilities and assets with:

- Simplified scheduling of preventative maintenance
- Focused processes supporting safety and Infection Prevention & Control initiatives
- Promoted sustainability and green initiatives through resource optimization and LEED™ credits
- Enabled tracking of information for regulatory compliance and governmental funding

The Magic of Silverlight Technology

Software is built for the needs of your business to help you solve your business problems. Great software does this and more - it makes it seem easy. Hippo delivers great software with the newest user-interface technology, Microsoft Silverlight. This robust new technology gives a best-in-class graphical user experience for HippoFM customers; coupled with HippoFM's specialty, CAD mapping of locations and equipment via architectural floor plans, HippoFM delivers an experience that leads the marketplace.

CONTINUOUSLY CREATING VALUE THROUGH HIPPOFM

Reduced Maintenance Costs

Preventative maintenance schedules — your library or ours. Reduce your costs and liabilities by maintaining the optimal working condition of all your assets by creating weekly, monthly and yearly preventative maintenance schedules.

Increase Work-Order Closing Speed

Increase your speed-to-close work requests and maximize use of resources. HippoFM's central database for incoming work requests enables you to assign, prioritize and determine what, when and where work needs to be done.

Clear Cut Communication

It's that simple. HippoFM's web-enabled application increases the quality of communication by allowing unlimited users to interact through a central portal that is timely, direct and efficient.

Accreditation and Capital Planning

Gain accreditation and manage your capital funding. With a few clicks of the mouse, automatically generate comprehensive maintenance and inventory reports that will assist in planning annual capital budgets.

Infection, Prevention and Control

Protect your staff and your organization against the inherent dangers of working near hazardous areas. Through the use of Hippo's built-in IP&C module, easily attach proper protocols directly to work orders.

Simply Superior CAD Power

CAD graphics, simple and easy-to-use. HippoFM makes it easy with preventative maintenance scheduling and a CAD graphic interface using your existing floor plans rather than a spreadsheet database model.

Five Star Rating Every Time

Increase client and guest satisfaction. Maintain a consistently high standard of service across all your locations — one that your clients won't notice, since they expect the best.

Buy a Hippo, Get a LEED™ Credit

LEED™ Credit - IDC1: Innovation in Design. By implementing HippoFM to create preventative maintenance schedules, you are eligible for LEED (Leadership of Energy and Environmental Design) credits toward your certification. LEED certificates can be used to apply for tax credits, grants and low-interest rate loans. Hippo has LEED Accredited Professionals on staff.

Hippo-on-the-Go

Hippo Handheld mobilizes your team with connectivity. With HippoHH, you have direct access to your account wherever you go. Save time, make strides toward a paperless environment, and increase accuracy by submitting, updating and closing work orders from anywhere.

Cloud-Based Updates

HippoFM updates itself automatically - you will always have the newest version.

Backup and Security

True 128-bit secure encryption and backed up twice a day - everyday!

Web-Based SaaS

Hippo's Software as a Service is web-based and requires no setup or installation.

No Technical Integration

We completely integrate Hippo software for you.

Remote Login & Access

Fully access HippoFM remotely from any computer with Internet Explorer.

100% Hippo User Support

Let your IT department focus on IT. HippoFM subscription includes 100% user support.

CAD Mapping Power

The power of CAD in HippoFM means detailed maps for unparalleled accuracy and performance
